BAKERY RACKS

**NEW
RANGE**

Our new range of bakery racks & accessories are your number one choice for quality, versatility, and efficiency. Featuring a fully welded finish, 304 grade stainless steel, a Z-base nesting frame design and interchangeable castors, this range is a step above the rest.

- **Supplied assembled** – a fully welded finish reduces maintenance costs. Say goodbye to flat-packs and re-tightening of fasteners.
- **Grade 304 Stainless Steel** – superior corrosion resistance, increasing longevity of your racks.
- **Thicker steel construction** – prevents shelves and frames snapping or buckling in heavy commercial use environments.
- **Tray locking bars** - to prevent baking trays slipping during transport. Trays can be loaded from the back or front of the rack.
- **Bolt-on interchangeable stainless steel castors** – no more rust, no more grinding off the castors when they're due for replacement.
- **High-Temperature Wheels** – Australian manufactured, proven to last the distance under extreme conditions, market leading design.

Grade 304 Stainless Steel Castors with High Temp Wheels

Stack & Nest Tubs

32L, 52L & 68L AVAILABLE

Made from food grade polypropylene, these tubs stack on top of each other and nest inside of each other for incredible space saving storage!

Stacking: When your stack & nest crates are full, you can sit them on top of one another without damaging the contents of the crate below.

Nesting: When not in use, our stack & nest crates will slide inside of each other nicely, minimising the amount of space they take up for storage.

Ext. Dimensions	Int. Dimensions	Capacity	Material	Part No.
650 x 410 x 210mm	490 x 310 x 200mm	32L	Polypropylene	SNR003

A wide range of castor options available - including stainless castors!

High/Low Temp Wheels & Castors

Perfect for use in bakery applications, smoke houses, cool rooms, chillers, or any other application where there is temperature fluctuation and exposure from -30° to +350° with peaks up to 400°C.

Aluminium

Our aluminium wheels are manufactured from high quality aluminium castings and are suitable for extreme temperatures ranging from -30°C and +300°C. Aluminium material withstands heat so is susceptible to damage/mark non-slip or epoxy flooring.

Glass Filled Nylon

Ideal for light baking trolleys, glass filled Nylon wheels can be used in temperatures from -30°C and +300°C. These wheels are non-marking & won't damage, mark or stain non-slip or epoxy coated floors.

High Temp Polymer

Manufactured from a special high temp nylon polymer these wheels are suitable for medium-high temp ovens under heavy load baking up to 280°C. These wheels are non-marking & won't damage, mark or stain non-slip or epoxy coated floors.

High Temp Castors Available with Zinc Plated or Stainless Steel Frames
